Materials:
Approx 100g (1 Skein) Chunky 12 ply Acrylic yarn and toy stuffing
5.5mm Crochet Hook
Safety eyes (optional)
Darning Needle
2 x small circles of cardboard (optional)
2x small pebbles/rice bag for weights (optional)
Scissors
DK Cotton yarn in black or Embroidery cotton in black
Embroidery Needle

NOTE: you can make this pattern up in any size yarn you like (I'd recommend DK and above) just use the recommended hook for the yarn, using smaller yarn will not alter the pattern it simply makes the doll smaller. It's also advisable to use a stitch marker for this project at the end of every row.
Worked in rounds not slip stitch joins unless stated. Pattern is in standard UK crochet terms. To use in American crochet terms just change DC to SC (single crochet)
Tension is not important; just ensure your tension is tight enough to allow minimum gaps through the yarn so the stuffing doesn't show.

Abbreviations used:
MC = Magic Circle
AL = Adjustable Loop
DC = Double Crochet
TOG = Decrease/ together
F/O = Finish off
SS / SL ST = Slip Stitch
ST = Stitch
CH = Chain
BLO = Back Loops Only

Reading the pattern:
() number inside is the number of stitches in that row you will finish on
* indicates a repeat, the repeat runs until the end of the row unless stated

1DC X2, 2DC
When a x is used, this indicates for how many stitches you will repeat the process, for eg, the above instruction is to double crochet into the next 2 stitches, then place 2 double crochet into the next stitch.

Each instruction change per stitch is marked by a comma, so for eg:
1DC X7, 2DC, 1DC X4
This instruction is to put 1 double crochet into the next seven stitches, 2 double crochets into the next stitch, and 1double crochet into the remaining 4 stitches.

F/O and weave in ends

FINGERED ARMS (follow on from here)

18) 1DC X7, 2DC, 1DC X4 (13)
19) Sl st end 3 stitches together so the arm starts to join together, DC around these 3 st and upwards 9 times to create a finger, F/O

Attach the same colour yarn to the next spare st next to your finger, and repeat above. Do this twice

With last 4 st, SL ST the last 2 together (closest to the finger you just completed) and DC around and upwards to form a finger x12, this makes a larger thumb)

Video tutorials are available on YouTube for crocheting fingers as I am not great at explaining them! Note they take some getting used to and if you're not happy with them you can always shape with some yarn and a needle later!

TO MAKE UP

Stuff arms and body and shape, attach head to body using tail from body and whipstitch. Using embroidery thread or cotton yarn make a joining line from safety eyes (or if using French knot, make 2 x knots 7 st apart between rows 8 and 9 of head then use this step) using embroidery thread.

Attach arms to body using tail from arm section. You can use a loop of thread to bend his arm to make it look like he's waving if you wish pr even use pipe cleaners inside his arms to make him posable!

Cut your cardboard to fit inside the bottom of each foot and use your pebble or rice bag in the middle of some toy stuffing to help balance Beymax. Pin in place then use the long tail to sew to the (stuffed)

All done!
